

# Sustainability strategy 2023–2025

### Our commitment to sustainability

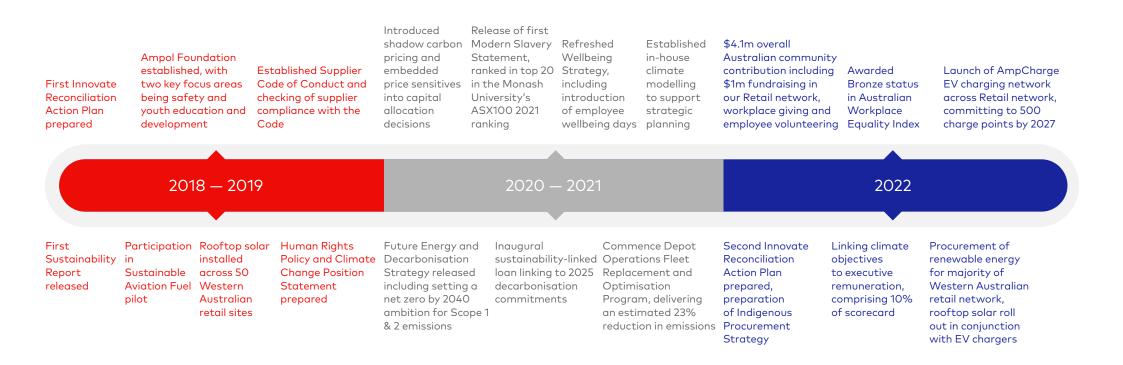

In executing our corporate strategy and delivering on our purpose, we recognise that we need to take a responsible and long-term view to deliver enduring value for our customers, community, our people and shareholders.

Our approach involves making sustainability part of decision-making at all levels in our business, and in a way that balances environmental, social and governance aspects with our broader strategic objectives. We consider and align our approach with recognised practices and standards and feedback from our stakeholders on material issues. In 2022, we refreshed our Sustainability Strategy to align more closely to our purpose and corporate strategy, and covering all the geographies that we operate in. We have set principles that will guide our approach to sustainability. We have also prepared a roadmap detailing the activities we plan to undertake in order to progress the 2025 commitments and 2030 goals we have set.

We believe businesses have a role to play to progress the United Nations Sustainable Development Goals (SDGs) and we have aligned our goals with the relevant SDGs.

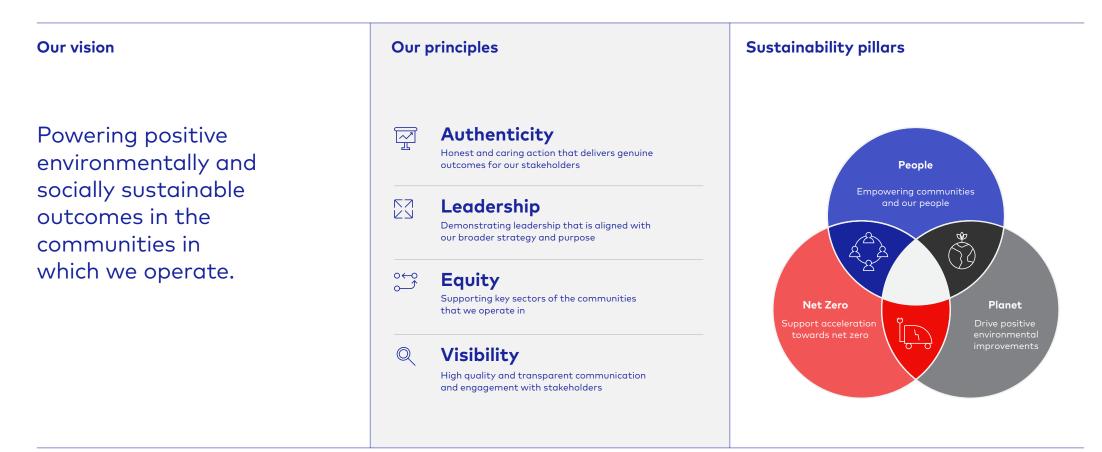

## Ampol's sustainability journey to date

Our refreshed sustainability strategy builds on strong foundations and the commitments and targets Ampol has already set. Recent Ampol initiatives and performance are set out below.

### Vision, principles and pillars

### Sustainability focus areas

We are committed to transparency and publicly reporting on progress annually.

For each focus area:

Set 2030 goal

Identify 2025 public commitments and key deliverables to progress 2030 goal

Key metrics to measure performance Report performance to stakeholders annually

## Wellbeing and inclusive workplaces

#### Our 2030 goal

Drive safe, healthy, equitable and inclusive outcomes for our people including upskilling and development for the energy transition.

#### 2025 public commitments

- Deliver a mental health first aid program to senior leaders and a minimum 10% of permanent workforce.
- Introduce a wellbeing leave offering for employees.
- Achieve a 40/40/20 gender representation target across our enterprise.
- Gender-pay difference on a like-for-like roles is between +/- 1%.
- Improve our status in the Australian Workplace Equality Index.

## Indigenous partnerships

#### Our 2030 goal

Contribute to reconciliation where Aboriginal and Torres Strait Islander peoples have equitable participation in Australian society and where the long heritage and culture of First Australians is respected. Achieve a material uplift in the representation of Māori & Pasifika as part of our workforce in New Zealand.

#### 2025 public commitments

- Work towards and maintain relevant representation of Indigenous people across the geographies that we operate in.
- Develop a commitment to Te Tiriti/ Te Ao Māori.
- Maintain and strengthen relationships with Clontarf and Stars Foundations and TupaToa.
- Execute our Aboriginal and Torres Strait Islander procurement strategy.
- Establish a stretch-level Reconciliation Action Plan.

# Supporting communities and nature

#### Our 2030 goal

Have a positive and measurable impact in the communities where we operate and support nature positive outcomes.

#### 2025 public commitments

- Increase Ampol Foundation 'total community contribution' to >\$5 million including cash donations, in-kind support, employee contributions, fundraising and employee volunteering hours.
- Deliver Z Energy's Biodiversity Fund and Good in the Hood campaign to local communities.
- Increase Australian employee volunteering and workplace giving outcomes by 50% from 2021 levels.
- Continue to take a proactive approach to the responsible sale of tobacco.
- Establish metrics and systems to measure social and nature positive value.
- Development and delivery of proactive community and environmental programs across targeted Fuels Supply Chain facilities.

# Circular economy

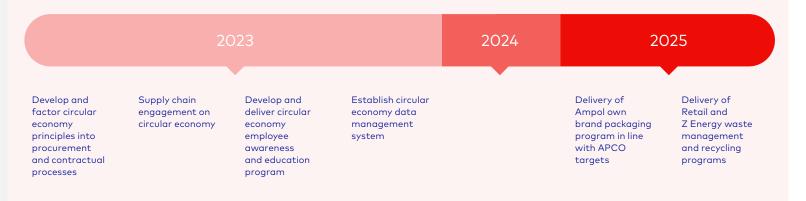

#### Our 2030 goal

Collaborate with our value chain partners, government and industry to reduce waste and support the transition to a circular economy.

#### 2025 public commitments

- Establish standards to integrate circular economy principles into the business including use of renewable and sustainable raw material; reuse/recyclability of equipment that has reached end of life and adaptive re-use of assets and equipment.
- Establish a pathway to introduce recycling initiatives for customers and operations for retail sites to minimise volumes of food and packaging waste being sent to landfill.
- Ampol Own Retail Brand packaging to be in line with Australian governments' 2025 National Packaging Targets as an active Australian Packaging Covenant Organisation (APCO) member.

### Decarbonisation

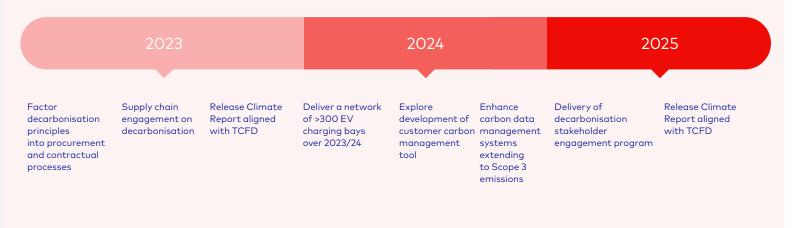

#### Our 2030 goal

Contribute towards our ambition of net zero emissions across our Australian operations by 2040 together with reducing the emissions intensity of the products we sell to customers and within our supply chain.

#### 2025 public commitments

- Commit to 40% equivalent net renewable electricity for operational use.<sup>(1)</sup>
- Convenience Retail reduce operational emissions<sup>(2)</sup> on an absolute basis by 25% by 2025 from 2021 levels.
- Fuels & Infrastructure reduce operational emissions intensity<sup>(3)</sup> by 5% by 2025 from 2021 levels.
- Z Energy progress 2030 goal to reduce operational emissions<sup>(4)</sup> by 42% from 2020 levels.
- Progress target to operate or control at least 500 AmpCharge or equivalent EV charging bays by 2027 in Australia.
- Enhanced processes to identify emissions reduction opportunities within our supply chain, partnering where feasible.
- Continued transparency and climate disclosures aligned with Task Force on Climate-related Financial Disclosures (TCFD).

#### Key deliverables to 2025

- 1 This commitment applies to Convenience Retail and Fuels and Infrastructure business units operating in Australia. Equivalent net renewable includes electricity offset with large-scale renewable energy certificates, on-site solar and grid decarbonisation.
- 2 Ampol's definition of operational emissions is in accordance with the National Greenhouse and Reporting (NGER) definition and refers to all Scope 1 and 2 emissions within Ampol's operational control in Australia.
- 3 Total emissions (Scope 1 and 2) per kL of Total High Value Product (HVP) for Lytton refinery and total emissions (Scope 1 and 2) per kL of Total Fuel Throughput for our three largest Terminal facilities: Kurnell NSW, Banksmeadow NSW and Newport VIC.
- 4 Z Energy's operational emissions includes Scope 1 and 2 emissions, together with Scope 3 emissions associated with staff travel, waste to landfill and domestic distribution and storage of fuels in New Zealand.

#### **UN SDG alignment**
